HADLOW RURAL COMMUNITY SCHOOL

2024-25 Exam Results

Context

Attainment on Entry:
Although there are no KS2 scores for this academic year, the average scaled score for cohorts at HRCS is around 100, well below the Kent and National averages of 104.8 and 104 respectively.

It is therefore difficult to make direct, like for like, comparisons between HRCS attainment results and National or Kent Averages.

Land-Based Courses
The specialism of the school focuses on Land-Based courses including Agriculture, Horticulture and Countryside Management. The school has continued to teach these but with limited facilities, due to the Educational Administration of Hadlow College.

These courses represent the equivalent of two GCSE's and whilst they serve the local community and enable students to progress to Further Education, they are not included within the headline measures for the school.

Cohort Size
HRCS is a small school with the Pupil Admission Number (PAN) for each Year group typically set at 75. Calculations for the 2024-25 cohort included 69 students on roll at the time of the January 2025 census. Therefore, each student accounts for approximately 1.5% when considering threshold measures ie GCSE 9-5 and 9-4 English & Maths results.

Gender
The gender split for the cohort was a 64:36 Male to Female ratio.

SEN
The Year 11 cohort had a high level of students with Educational Health Care Plans, 7.2% compared to the National Average of 2.4% and 16% receiving SEN Support. 10% of students also received additional High Needs Funding.

Mobility
This cohort experienced a high degree of mobility with only 80% of students admitted in Year 7 2020 completing in Year 11 and 16% of the final cohort arriving within KS4.

To help provide a greater understanding of the school performance, further results data and comparisons have been provided to account for some of the factors described above.
